JOURNAL OF MARINE SYSTEMS

Contents Volume 6 1995

25th International Liege Colloquium on Ocean Hydrodynamics
J.C.J. Nihoul and P. Brasseur 1
Assimilating ocean tide determined data into global tidal models
W. Zahel 3
Comparison of sequential updating, Kalman filter and variational methods for assimilating Rossby waves in the simulated Geosat altimeter data into a quasi-geostrophic model
M. Ikeda, G. Evensen and L. Cong 15
Assimilation of temperature and sea level observations into a primitive equation model of the tropical Pacific
M. Fischer and M. Latif 31
Analysis of model calibration results: Atlantic Ocean climatic calculations
A.S. Sarkisyan 47
Spatial scales of surface wind observations and analysed wind fields over the North Atlantic Ocean
K. Bumke 67
Wave data assimilation in the WAM wave model
M.M. de las Heras, G. Burgers and P.A.E.M. Janssen 77
A sequential assimilation scheme applied to global wave analysis and prediction
P. Lionello, H. Günther and B. Hansen 87
The sea surface pressure formulation of rigid lid models. Implications for altimetric data assimilation studies
N. Pinardi, A. Rosati and R.C. Pacanowski 109
Comments on "The sea surface pressure formulation of rigid lid models. Implications for altimetric data assimilation studies" by N. Pinardi, A. Rosati and R. Pacanowski
E. Deleersnijder 121
Assimilation of altimeter data into a quasigeostrophic ocean model using optimal interpolation and eofs
M.M. Rienecker and D. Adamec 125
Data assimilation into a numerical shallow water flow model: a stochastic optimal control approach
A.W. Heemink and I.D.M. Metzelaar 145
Continuous data assimilation of drifting buoy trajectory into an equatorial Pacific Ocean model
M. Kamachi and J.J. O'Brien 159

Chlorophyll distribution throughout the southeastern Mediterranean in relation to the physical structure of the water mass
Y.Z. Yacobi, T. Zohary, N. Kress, A. Hecht, R.D. Robarts, M. Waiser, A.M. Wood and W.K.W. Li 179
Biogenic production and consumption of dimethylsulfide (DMS) and dimethylsulfoniopropionate (DMSP) in the marine epipelagic zone: a review
T. Groene 191
Abyssal BEnthic Laboratory (ABEL): a novel approach for long-term investigation at abyssal depths
M. Berta, F. Gasparoni and M. Capobianco 211
The major inflow to the Baltic Sea during January 1993
F. Jakobsen 227
Sea response to atmospheric variability. Model study for the Black Sea
E.V. Stanev, V.M. Roussenov, N.H. Rachev and J.V. Staneva 241
A numerical simulation of red tide formation
T. Yanagi, T. Yamamoto, Y. Koizumi, T. Ikeda, M. Kamizono and H. Tamori 269

Announcement 287

Kelvin wave controlled upwelling in the western Baltic
W. Fennel and T. Seifert 289
Near-inertial motions in the coastal ocean
J. Tintoré, D.-P. Wang, E. García and A. Viúdez 301
A model of the yearly cycle of nutrients and plankton in the Baltic Sea
W. Fennel 313
A simple model of biogeochemical element distribution in the oceanic water column
D. Shopova, F. Dehairs and W. Baeyens 331
The leading role of ammonium in the nitrogen uptake regime of Southern Ocean marginal ice zones
L. Goeyens, P. Tréguer, M.E.M. Baumann, W. Baeyens and F. Dehairs 345
Thermal forcing for a global ocean circulation model using a three-year climatology of ECMWF analyses
B. Barnier, L. Siefridt and P. Marchesiello 363

Radioactive tracers as a tool in coastal oceanography: An overview of the MAST-52 project
H. Dahlgaard 381
Quality assurance of the oceanographic tracers Technetium-99 and Antimony-125: Intercomparisons and recovery tests
H. Dahlgaard, J. Herrmann, A.W. van Weers, M. Masson, R.D. Ibbett and Q. Chen 391
Time series for sea water and seaweed of ^{99}Tc and ^{125}Sb originating from releases at La Hague
M. Masson, A.W. van Weers, R.E.J. Groothuis, H. Dahlgaard, R.D. Ibbett and K.S. Leonard 397
A tracer study of the transport of coastal water from the English Channel through the German Bight to the Kattegat
H. Dahlgaard, J. Herrmann and J.C. Salomon 415
The distribution of artificial radionuclides in the English Channel, southern North Sea, Skagerrak and Kattegat, 1990–1993
J. Herrmann, P.J. Kershaw, P. Bailly du Bois and P. Guegueniat 427
A quantitative estimate of English Channel water fluxes into the North Sea from 1987 to 1992 based on radiotracer distribution
P. Bailly du Bois, J.C. Salomon, R. Gandon and P. Guéguéniat 457
FLUXMANCHE radiotracers measurements: A contribution to the dynamics of the English Channel and North Sea
P. Guegueniat, P. Bailly du Bois, J.C. Salomon, M. Masson and L. Cabioch 483
A 2D long term advection–dispersion model for the Channel and Southern North Sea. Part A: Validation through comparison with artificial radionuclides
M. Breton and J.C. Salomon 495
A 2D long term advection–dispersion model for the Channel and southern North Sea. Part B: Transit time and transfer function from Cap de La Hague
J.C. Salomon, M. Breton and P. Guegueniat 515
Numerical simulation of the dispersion of artificial radionuclides in the English Channel and the North Sea
W. Schönfeld 529
A box model for North-East Atlantic coastal waters compared with radioactive tracers
S.P. Nielsen 545
^{129}I from nuclear fuel reprocessing facilities at Sellafield (U.K.) and La Hague (France); potential as an oceanographic tracer
G.M. Raisbeck, F. Yiou, Z.Q. Zhou and L.R. Kilius 561
On the background level of ^{99}Tc, ^{90}Sr and ^{137}Cs in the North Atlantic
H. Dahlgaard, Q. Chen, J. Herrmann, H. Nies, R.D. Ibbett and P.J. Kershaw 571
